> F. HENDERSON Secretary.

Hongkong, March 23, 1892. AN-APOLOGY.

THE PROSECUTION OF THE OPIUM FARMER.

f BEG to express through your columns my deep regret that I should in a hasty moment, in consequence of my not being able to read or understand Chinese accounts, have commenced a prosecution against Mr. KOH OHENG SEAN, the chief manager of the late Opium Farm, with reference to the funds of the Dr. Chambers English-Cantonese Diction-CHEANG, TEK KONG SEE. A com-22 plete investigation into the matter and a careful examination of the books and accounts have thoroughly convinced me that my suspicions were wholly groundless, and that there has been nothing whatever in Mr. KOH OHENG SEAN'S management if the business of the J. Dyer Ball, \$1. OPIUM FARM that is in any way reprehensible; and further, that he has all along been doing his best, honestly and feithful-19, for the monetit of the CHEANG TEK KONG SEE.

I should be obliged if you would insert Issues Letters of Oredit, forwards Bills for this letter in your correspondence column once, and afterwards as an advertisement for the period of one month, as I am anxious to undo as far as possible any in. Deutsch-Chinesisches Conversationsbuch, jury I may have, through my hasty and unjustifiable action, inflicted upon Mr. KOH OHENG SEAN.

Yours truly.

OH TEK LEONG.

A THESPIAN HOLK -Toward the latter part of last week (says the Shanghai Mercury) theatre-going Natives were excited by an announcement made in the vernaou. lar press, and in flaming red placards that the Celestial Genii Threatre would bring out a new drama. Thespian circles were deeply moved, particularly in comesquence of the significant name given to the new drama, viz., Foothow Road, throughout the empire Shanghai is regarded as a sink of iniquity, so in Tars forencen, while the British barque Shanghal the Foochow Road is as the foul ulcer of this Model Settlement, consequentit was believed that life in opinm dons, in gambling bells, and Cyprisn chambers would be illustrated in a lively manner. MANAGEMENT OF THE VACCINE INSTITUTE. The following letter was received from the Colonial Secretary of date March 27th; -Referring to your letter of 7th inst. re-HARMSTON and Sons' big show, which was garding the supply of calves for the Vaccine Institute; I have the honour, by direction of the Governor, to incharge of the Medical Department and appointed Mr Ladds to be Superin-Excellency's instructions in the matter, and that his duties in connection with the Institute will be, under the direction of the Colonial Surgeon, to cultivate and collect lymph and transmit it to him; to arrange for the supply of calves and for their food to engage a suitable caretaker; and to of furnish the Colonial Surgeon with monthly accounts of expenditure THE SANITARY CONDITION OF BAKERIES IN

The Sanitary Superintendent submitted a report on the above subject. It was stated that he had again inspected all the known bakeries where bread is prepared for sale to the foreign community and found them to be practically in the same condition as when he last reported regarding them. He explains that the phrase in a fairly cleanly condition applied to some of the bakeries means that, although not so clean as they should be, still there is nothing of importance in the way of uncleanness to take much exception to. With two exceptions the drainage is reported as evidently defective : in some cases the bakeries are used as there are closets or kitchens in the bake-Mr Ede appended to the report; - 'I think a small committee might be appointed to draw op, and submit to the Board, regulations for the maintenance of bakeries in a sanitary state. It is very important that closets or kitchens should not be in open or direct communication with bake es, that the drainage be in thorough order, and that no bakery be used as a dwelling by the workmen. If I remember gightly some rules or bye-laws were drawn up at one time but remained in abeyance. If so, I think it might be well that the papers thereon be circulated to members before the next Board meeting.

Dr Cantlic appended a note agreeing with Mr Ede that a Committee should be appointed to draw up byu-laws. Mr Humphreys said se he had not read the report he should like to de so before anything was done. The President thought it would be enough if they but Mr Humphreys upon the Committee, then he would see all the

The number of cattle entering the depot during 1891 was 15,265, the number rejected as unfit for use being 806. The depot at Cheeng Hing is a small private place totally unfit for the purpose for which it is used, and will be, he doubt, done away with upon the completion of the extension of the Government depot. The shoop up to the present time have always been housed in private depots which are situated in various parts of the city, these places being as a rule the ground floor of a Chinese dwelling house. They are, of course, very unsuitable places, and I am glad to say that permanent depots for the reception of sheep are now being constructed by the Government to be conducted apon the same principle as the cattle depot. THE YEARFUL STATE OF BUSKIE.

London, March 2. - An English special correspondent who is travelling in the famine districts of Russia writes from saratov that crimes of violence in the Valley of the Volga are of frequent occurrence. Clergymen's houses have been robbed and the bodies of the murdered men found on the highroads. The correspondent was warned of the danger of travelling about the country and he seldom drove about et night. Caravana de merchandise are escerted by armed forces. The correspondent adds that villager in the Government of Samara, which were prosperous in 1886, are now plunged into deepest misery, and that the population has been decimated. In one village 2.765 of its 7,865 inhabitants have migrated 1 of those remaining, 1250 are dependent upon charity. In three months the people of the village lost 4,038 head of live stock, They are indebted to the State also for the sum of 73.888 roubles. A similar condition prevails in other villages: 40,000 acres of land lie idle in the Province of Samera owing to the lack of reed with which to plant this area.
